

## ACEC Ohio Chapters' Legislative Fly-In Events Scheduled for January

We invite you to join us for the upcoming **ACEC Ohio Regional Legislative Fly-In** events, offering our members a unique opportunity to engage with state legislators and advocate for **key issues** impacting the **engineering community**.

This is our second-year hosting legislators, designed to strengthen the relationship between engineers and lawmakers. The event allows ACEC Ohio members to meet legislators in their home districts rather than in Columbus where time with lawmakers is more limited.

Participating in the ACEC Ohio Regional Legislative Fly-In is more than just a networking opportunity; it's a chance for ACEC Ohio members to become informed advocates and influential voices, helping shape the future of the industry in the legislative arena.

Our goal is to foster stronger connections and ensure that the engineering community's concerns are heard and addressed at the state level. We will provide members with talking points to help guide discussion.

Below is the meeting information and registration for each chapter event.

### **Northwest Chapter**

January 10, 2025 – 11:30 am – 1:00 PM

Toledo Club
