

Building a Stronger Workforce: ACEC Ohio's Scholarships Empower Future Engineers

As a valued member of ACEC Ohio you play a crucial role shaping the future of our industry.

Each year, we award four regional scholarships totaling **\$2,500!**

This year we will again use the AwardSpring platform. AwardSpring automatically matches students with scholarships available to them, based on their completed applicant profile and the sponsor's eligibility requirements.

Students can create an account through our portal which currently hosts 100+ scholarships totaling more than **\$700,000** in grants.

We encourage you to share this opportunity with any engineering students in your network. By promoting our scholarship program, you are helping invest in the future of engineering and ensuring the continued growth of our industry.

To be considered for a scholarship, applicants must be a full or part-time student (junior, senior, or graduate student status) pursuing an engineering or surveying degree and enrolled in an ABET-accredited institution.

CIWP Scholarship

ACEC Ohio will also offer a \$1,500 scholarship for students enrolled in the Construction Inspection Workforce Program (CIWP). In collaboration with **ODOT**, this program is a pipeline for the development of the next generation of construction inspectors.
